ABOUT US:

VRM Energy Consultancy Services Private Limited also known as “VRM”, fastest growing Solar EPC (Engineering, Procurement & Construction) company for Rooftop Solar Power Plants located in Chennai. VRM has executed 10+ MW of Solar Rooftop Projects for leading MNC’s across 12 states.

A highly skilled team, equipped with state of the art technology makes VRM a preferred partner for a host of companies in sector such as Education Institutions, Port Trust, Airport, Hospitals and many other corporates. Our end-to-end solutions, from Design to maintenance, powered by cost effective and streamlined commissioning processes bring the power of solar within you reach.

The factors giving an edge to VRM over competition:

- Hands on experience in rooftop solar installations, with more than 65+ completed projects
- Commissioning of projects within 3 – 6 months of contract closure, typically less than 30 days of actual installation work on site.
- Equipped with an experience in-house engineering, procurement and project management team with a thorough understanding of solar
- Consistent plant performance and customer satisfaction leading to 100% repeat business from more than 10+ corporate clients
- Strict adherence to all relevant safety guidelines and employment of experienced personnel for the job resulted in 100% accident free man-hours.

OUR QUALITY:

As a solar EPC company, our priority is to reduce the lifetime cost of energy, which means ensuring long system life and high long-term performance by:

- As per Indian Standards, we construct civil pedestal with M20/M25 ratio. Also, we take test report to analyze compression strength of the civil pedestal
- System design to match the location requirements, including wind speed, corrosion risks and maintenance requirements & other factors
- In-house engineering, procurement, projects and O&M teams which work together closely on each project design
VRM ENERGY CONSULTANCY SERVICES PRIVATE LIMITED

OUR SERVICES:

- **Engineering, Procurement & Construction (EPC):**
  - EPC – Rooftop Solar Power Plants
  - LED Lighting Solutions
  - Electrical Installation
  - Transmission and Distribution

- **Consultancy:**
  - Project Management Consultancy (PMC)
  - Solar Financing
  - Renewable Energy Advisory

- **Solar Product Distributions:**
  - PV Modules: TRINA SOLAR, CANADIAN SOLAR, PV POWERTECH
  - Grid Tie Inverter: DELTA, ABB, GROWATT, ZEVER SOLAR, SOLAX
  - Junction Boxes: DCDB, ACDB, LT Panel, Metering Panel, HT Panel
  - CABLE: SIECHEM, HAVELLS
VRM offers end to end services in setting up Rooftop based Solar Photovoltaic power projects. Our Solar division is specialized in the setting up of solar photo voltaic power plants on EPC or turnkey basis. It conceives & implements solar power projects form the conception to installation and maintenance, using the best available technologies and cutting edge technical solutions by relying on highly qualified professionals to accomplish the deliverables to the highest international standards.

Quality Standards for project execution:

As a solar EPC company, our priority is to reduce the lifetime cost of energy, which means ensuring long system life and high long-term performance by:

- Rigorous shadow analysis to optimize the plant design given shadows from nearby objects throughout the year
- Using only the highest quality components, including Tier 1 modules backed by robust linear degradation warranties and top-tier inverter and other components supplies
- System design to match the location requirements, including wind speed, corrosion risks and maintenance requirements & other factors
- In-house engineering, procurement, projects and O&M teams which work together closely on each project design
- World class remote monitoring and O&M to maximize operational performance
VRM ENERGY CONSULTANCY SERVICES PRIVATE LIMITED

MODULE MOUNTING STRUCTURES

We provide PV mounting solution with quality, design for rooftop mounting system and Ground Mounted System.

We are successful in manufacturing, supplying and trading of module mounting structure to the clients. The structure is manufactured using superior quality materials and parts. The offered structure is useful for entire type of installation be it domestic or commercial or industrial. Further, structure can be customized according to the requirement of the clients.

We manufacture and supply module-mounting structure, which is ready to install Aluminum and GI Mounting structures for all kinds of Rooftop applications. We have supplied module-mounting structures to all leading EPC companies across India including Hero Future Energies, Su-Kam, InfiniteErcam, Zynergy, etc.,

LED LIGHTING SOLUTIONS

VRM is supplying PHILIPS make LED Lights to their customers for energy efficiency by LED replacement with the existing conventional lamps. We believe in energy efficient lighting solutions for industry that reduce environmental impact and save on cost, at the same time improve quality and productivity.

VRM is committed towards improving the lives of the people by providing efficient and glare free lighting. Our products are eco friendly and help customers in saving significantly on energy consumption and costs. Better lighting also makes people feel safe in night as in day.

VRM’s lighting strategy is focused simultaneously on commercial and residential markets. All of the lamps and luminaries are catered towards all regional lighting needs in multiple applications such as in retail, hospitality, healthcare, industry and office lighting, etc.,
SOLAR FINANCING

VRM provides solar energy to business centers, Schools, Colleges, Universities & Industries, etc., at a lower cost than they pay for energy generated by burning fossil fuels like coal, oil & natural gas. We finance, design, build, operate & maintain your high quality solar power plant, empowering you on each step towards energy independence by helping you lock-in savings, at no hassle, for a lifetime.

A Solar lease (or a Solar Power Purchase Agreement) lets you pay for the energy the solar panels produce instead of purchasing / leasing the panels itself. PPA can have either fixed, escalating or de escalating monthly payments over the lifetime of the agreement, which can be minimal of fifteen years or more.

What We Do?
We handle entire project flow from Concept to delivery, Generate Clean Returns and Share them with you.

We invest, so you don’t have to. No Capital Investment from your business.
We customize the system
We handle maintenance & energy monitoring

You pay for solar power, not panels – just like your electricity bills but only cheaper
The System is yours after our contract expires - enjoy free Solar Power thereafter
